FOR IMMEDIATE RELEASE

Monday, January 9, 2012

Stirling's Buffalo Mozzarella kicks off Season 3 of Pitchin' In!

Lynn Crawford is back and picking up where she left off in Season 3 of the Food Network's Pitchin In'. Lynn travels across the world to find the freshest ingredients, and last spring the network brought their cameras to Stirling-Rawdon for the freshest Buffalo Mozzarella!

Last spring Lynn Crawford visited the Ontario Water Buffalo Company located on Hwy 14 in Stirling-Rawdon and operated by Martin Littkeman and Lori Smith. With the knowledge that a group of Ontario farmers have become some of the only farmers outside of Italy to raise Water Buffalo for their prized milk, Lynn was delighted to work with this ingredient, and intrigued to find out more about these charismatic animals.

The process has been captured from beginning to end, while Lynn Crawford assists with milking the water buffalo at the farm, oversees the process of producing Buffalo Mozzarella at Quality Cheese, a local creamery located in Vaughan Ontario, and returns to Stirling where she prepares a meal using local ingredients, with the highlight of the dish being Mozzarella di Bufala!

"We had such a great time filming the episode with Lynn Crawford and her crew," says Lori Smith, Ontario Water Buffalo Co. "They made it an amazing experience! We are beyond excited to see the show air and are thankful to the Food Network for the opportunity to promote our product across Canada. We hope everyone enjoys it!"

Season 3 of Pitchin' In with Lynn Crawford premieres this month on the Food Network Canada. See Lynn Crawford in action Monday, January 16th at 7pm ET/4pm PT, repeating at 11pm ET/PT where she hosts in Stirling and prepares a meal with local Buffalo Mozzarella!
